A STEP AHEAD

Awarded Best Debut by Runner's World magazine, these racing and trail-running shoes perform at the top of their game both on and offroad. They'll help you get from A to B quickly and efficiently on wet and dry surfaces. Their low-to-ground profile makes them sensitive underfoot and increases their stability so they're perfect on rough and variable surfaces, while their outsole grips the ground well so you can wear them confidently in all kinds of weather. Available for men and women, these shoes are light and comfortable. They feature a flexible forefoot that allows you to move around fluidly and increases your agility, and their snug fit encourages precise foot placement, so you can boldly pound the pavement or trample the trail. MONT WARMILITE MAT

Used by: Emma Bowen, AG Outdoor ed
On a recent 15-day trek through Gokyo, Nepal this sleeping mat ensured I maintained a little bit of luxury along the way. Inflated quickly with just a few breaths, the Warmlite mat blocked out any chill from the ground due to the Primaloft Eco insulation (made from 50 per cent recycled materials) and was incredibly lightweight. Sleep was blissful each and every night and this mat made me the envy of my tent-mate. from \$189 (183 cm), www.mont.com.au
